The "Periods Played" and "Time Played" for each goaltender is automatically entered.

If a goaltender is removed from the game, the "Automatic Times" can be turned off.

If the Automatic Times is turned off (No), then all of the remaining "Periods" and "Min:Sec" must be entered manually.

A shot on an empty net is not counted as a shot on a goaltender.

If the "Automatic Times" is on (Yes) and a goal is scored in Overtime, the goalie times are automatically calculated when you enter the SOG.
