

# The Pregame Setup

RinkWriter's "Main Menu" displays a **\*\*Pregame Setup\*\*** block of options.

The "Select Teams" button takes you to a form where you can select the gender, the age, the level, ...and the teams for your game.

The "Enter/Edit Rosters" button takes you to a form where you can enter or edit the rosters for your game. Rosters are automatically saved and retrieved for each team.

The "Starting Lineups" button takes you to a form where you enter the Starters and Alternates for your game.

The "Officials" button takes you to a form where you enter the names of the Officials for your game.

The "Game Setup" button takes you to a form where you enter the Name of the Arena, Name of Scorekeeper, Length of Periods, and Date (automatic) for your game.

The "Coaches" button takes you to a form where you enter the Names of the Coaches for your game. If the names of the coaches have been entered for a team, they are saved and automatically retrieved whenever that team is selected in the future.

The "Conference/League" button takes you to a form where you enter the Name of a Conference, Non-Conference, or the Name of a Tournament.

The "Opponent/Records" (optional) button takes you to a form for entering the name of a each team's next opponent...when and where they play...and each team's current W-L-T records.

The "Player Stats (Optional)" button takes you to a form where all of the starters and alternates automatically appear (after they have been entered). If you know how many goals each of the players has scored in the season or a tournament, you may enter that information here.

This form is optional and it is intended for the announcer. Each time a goal is scored, it will show the updated totals for the player. Cumulative totals are not kept beyond each game.
