Show Starters for PA Announcer

Don't forget to select the "Alternates".

Return to Main Menu

Automatically Saved

The Team Rosters are automatically displayed ...if they have been entered in the "Rosters" window.

First, select a goaltender and click on the >>>> button to enter him/her as the starting goalie.

Select a defenseman and >>>> the defenseman... and then select and enter the remaining starters.

Repeat this process for the opposing team.

After entering the Starters, select and move each of the Alternates.

The Alternates may be entered in any order because they are automatically sorted into numerical order.

The players selected as Starters and Alternates will be available whenever a goal is scored or a penalty occurs. The players designated as goaltenders will be seeded into the Shots on Goal and Saves window... where the goalie stats are entered.
