

Initializing RinkWriter

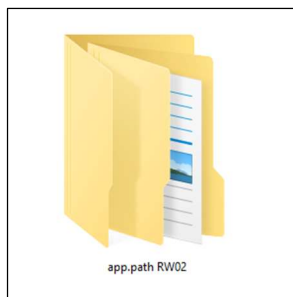

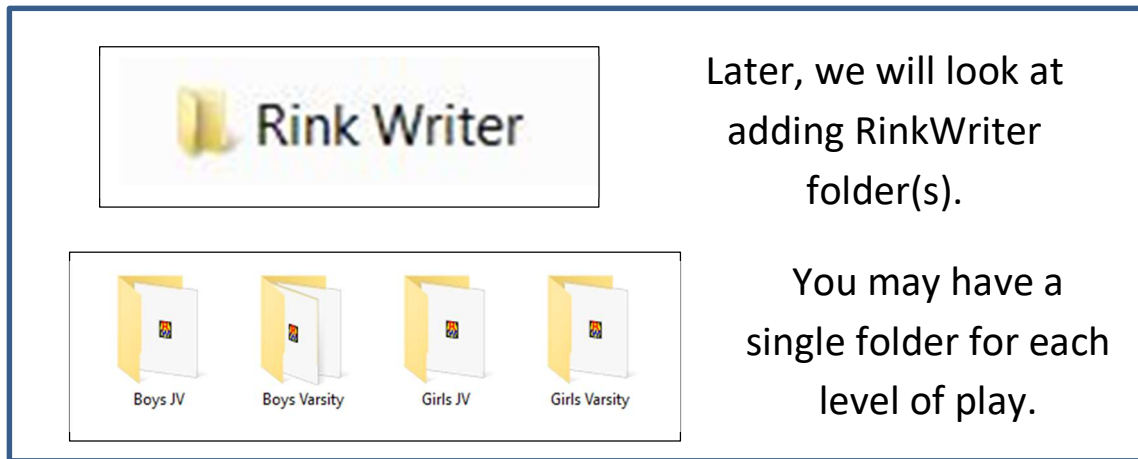

After installing RinkWriter and placing the “Rink Writer” folder on your desktop, open the “Rink Writer” folder and run RinkWriter by double-clicking on the RW icon. 

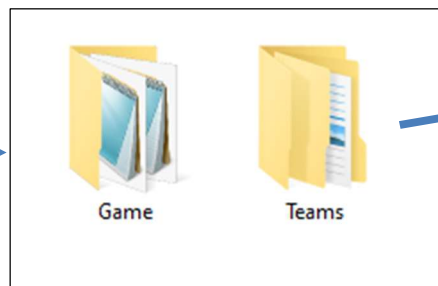

An “app.pathRW02” folder is automatically created inside of the folder the first time you run the software.

The “app.pathRW02” folder contains all of the data for this specific folder.

You may eventually have more than one Rink Writer folder on your desktop, but each folder must have a unique.

The “app.pathRW02” folder contains a “Game” folder and a “Teams” folder.

High School → 
The Teams folder contains folders for each level of play.

All of your high school rosters are automatically stored in the “HS” folder
