

# The Pregame Setup

The “Pregame Setup” can be completed before arriving at the rink.

**Pregame**

**Teams**

**Team Rosters**

**Create "Game Rosters"**

**Coaches**      **Officials**

**Rink/Game Setup**

**Scoresheet Title**

**Records/Opponents**

**Player Stats (Optional)**

Enter Team Names and Select the Visiting and Home teams.

Enter the Rosters for both teams...either by typing them in or importing them. They may be entered weeks before the game.

Game Rosters can be entered after the “Starters” and “Alternates” are known.

Enter the Names of the Coaches and Officials.

Enter the Name of the Arena and Scorekeeper.

Enter the Name of the Conference if it is a conference game or enter the name of the tournament if it is a tournament game.

Enter the Records for both teams and the name of their next opponent...Optional

This is an optional tool for the public address announcer.

All of the Pregame entries may be entered prior to arriving at the arena except for the “Game Rosters”.

The “Game Rosters” are limited to the 20 players who are actually participating in the game and are not known until submitted by the coaches.

The “Team Rosters” may include any and all players on the team, however, the “Game Rosters” will include only those players rostered for the game.
