Shots on Moose River's Empty Net

SOG (EN) 0

Clear

Automatic when SOG are entered.

A shot on an empty net is not counted as a shot on a goaltender. The is entered when an "EN Goal" is scored.

The scorekeeper simply enters the SOG and Saves for each goaltender and adjusts the goalie times if a goalie is removed during a game or period.

If the "Automatic Times" is on (Yes) and a goal is scored in Overtime, the goalie times are automatically calculated when you enter the SOG.
